A REPORTED

# Undocumented Number of Vernal Pools

Over 26 identified species of Herpetofauna

Densest Bio-Diversity In Ottawa [Brunton, 2008]

Over 679 Species: • 440 Native Plants • 164 Bird Species • 75 Species of Mammals, Fish, Reptiles, Amphibians

 Uncounted insects and fungi

All within an Area of 3 x 4 km

# Species At Risk in SMH

#### **Endangered or Threatened**

- American Ginseng
- Butternut
- Loggerhead Shrike
- Blanding's Turtle
- Whip-poor-will
- Golden Winged Warbler
- Western Chorus Frog
- Eastern Musk Turtle
- Olive Sided Flycatcher

**Special Concern** 

- Bridle Shiner
- Short Eared Owl
- Black Tern
- Common Nighthawk
- Snapping Turtle
- Eastern Milksnake
- Monarch Butterfly
- Bald Eagle
- Red Headed Woodpecker

44 Regionally Significant Plants 30 Regionally Significant Birds Old-Growth Forest Largest White-Tail Deer Yard in Ottawa (925 ha)

### TFD Severs Eco-Connectivity of SMH

#### • Scientific Conclusions:

 "TFD creates a Berlin Wall that blocks eco-passage and kills anything that tries to cross it" [Daniel Brunton]

 "TFD will lead to the inevitable eradication of the Blanding's Turtle – regardless of the mitigation measures proposed" [Ron Brooks]

 "Grave concerns about the ecological damage caused by the TFD extension" [OFGAC]

 "TFD dramatically reduces the ability of the SMH to withstand change" [Daniel Brunton]

# City of Ottawa's Response

#### McNamara's Fallacy: [Daniel Yankelovich]

- 1. Measure what can be measured
  - Haphazardly commissions piece-meal studies of the area to identify and count species
- 2. Disregard what cannot be measured, or give it an arbitrary quantitative value
  - Proposed mitigation relies on experimental eco-passages whose effectiveness has no scientific evidence

#### 3. Presume what cannot be easily measured isn't important

- Impact of losing ½ of SMH to development is never studied
- City has never examined its justification for TFD relative to its environmental impact

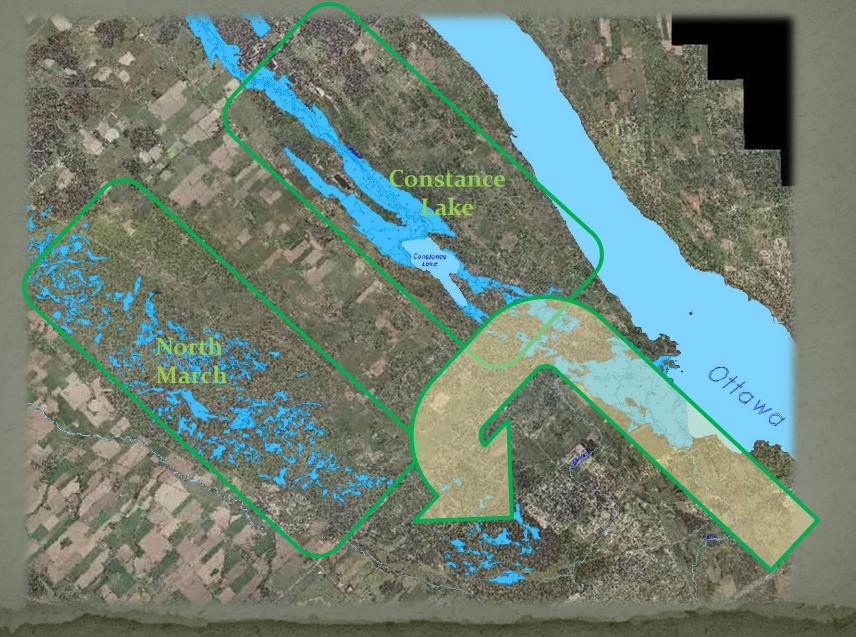

#### 4. Deny the existence of what cannot be measured

• TFD can be ignored when converting SMH into a NCC-owned wilderness park
